

Objectives and Delivery Plan

Customer Insight, Experience and Engagement

Transforming Blaby Together

Section 1 Introduction

This plan showcases Blaby District Council's commitment to our customers with guiding principles and aims for how our customers and service users will connect with us. Placing our customer at the heart of everything we do and recognising the importance of the diversity of customers' needs across Blaby District.

Blaby District Council, like other councils and central government, has made more and more of its services available online, and this shift to digital will continue. Many people find it more convenient to get information or to access services in this way as it fits in with their lifestyle. Increasing the number of residents who regularly 'self-serve' rather than choosing to phone or visit the council offices will help us target our resources more effectively to prioritise the people and communities who need help and support the most.

We also understand that self-serve and accessing online services is not for everyone. Our communities are diverse and so are their needs and preferences, we will do all that we can to meet these. We will use this plan to embrace the power of technology positively to tackle exclusion from services and communities, ensuring everyone has equal access to the information and help they need, regardless of their individual circumstances.

Supporting this document is our internal delivery plan, which consists of specific projects and initiatives. These projects and initiatives are managed through our Corporate Project Framework and iPlan, our Business Planning System, which ensures we maintain focus on delivering our objectives and realising tangible savings for our District.

Where are we now?

The results of the latest Blaby Residents Survey carried out in early 2022 has shown a positive and satisfied community within the district, with 63.5% satisfaction with services provided and 82% satisfied with the district as a place to live. Data from April 2022 – March 2023

Engaging with your Council – What we need from you

We want to continue offering value for money services to all our customers and communities. Supporting and encouraging more people to 'self-serve' frees up valuable resources, which means we are better able to assist our most vulnerable customers and prioritise support for people who need help the most.

Here are some simple and easy things you can do to help us achieve this:

- Before thinking about visiting the Council offices or picking up a phone, visit www.blaby.gov.uk its open 24 hours a day, every day of the year
- Sign up to 'My Account' – it only takes a few minutes but gives you personalised access to your key services such as Council Tax. We will be increasing the number of services available through 'Your Account,' and once you are signed up we will be able to keep you updated with any changes
- 'Following' us on X/Twitter and our Facebook page means you will be able to find out what is happening in your community, have conversations with people who have similar interests, and keep updated with Council news as it happens
- There are other self-serve options too, such as booking a bulky collection online or why not set up a Direct Debit for your Council Tax? Simply sign in to 'My Account' and follow the instructions.
- Let us help you to help yourself – we want everyone to benefit from accessing services online so will always encourage you to try it for yourself. If you have never been online before, or aren't sure how to access a service, we will support you by either talking you through the process or sitting with you to show you how it works
- If you do need to come and see us, make sure you bring your documentation and information so we can deal with your request faster and reduce the number of times we need to see you.
- Be polite and respectful – we want to help you but will not deal with violent, rude, or disruptive customers
